Request for Proposals # PSM-MOZ-RFP-007  
Mozambique SIGLUS Technical Assessment for OpenLMIS v3 Upgrade

Dear Sir or Madam,

Chemonics International Inc. (hereinafter referred to as “Chemonics”), under the USAID Global Health Supply Chain Program – Procurement and Supply Management (GHSC-PSM) project, USAID Contract No. AID-OAA-I-15-0004, is issuing a Request for Proposals (RFP) to support the project’s objective of conducting a gap analysis in Mozambique in order to inform on the level of effort required to upgrade the web-based Logistics Management and Information System (LMIS) called SIGLUS (Sistema de Informação de Gestão Logística das Unidades Sanitárias) to OpenLMIS 3.x. The attached RFP contains all the necessary information for interested Offerors.

The project requires a subcontractor to conduct a gap analysis that will inform the level of effort required to upgrade the existing SIGLUS system to OpenLMIS 3.x, and address software issues, and incorporate enhancements based on feedback from current users and the Central Medical Stores in Mozambique (CMAM). Completion of the gap analysis will support the rollout of the application to over 1,500 health facilities around the country.

Companies or organizations should indicate their interest in submitting a proposal for the anticipated subcontract by sending an email indicating their intention to Mr. Kyle Duarte at [kduarte@ghsc-psm.org](mailto:kduarte@ghsc-psm.org) by 11:30pm EST on April 25, 2018.

Chemonics realizes that Offerors may have additional questions after reading this RFP. Interested Offerors can submit their questions to Mr. Duarte according to the instructions in section 1.6 of the RFP.

This RFP does not obligate Chemonics to execute a subcontract nor does it commit Chemonics to pay any costs incurred in the preparation and submission of the proposals. Furthermore, Chemonics reserves the right to reject any and all offers, if such action is considered to be in the best interest of Chemonics.

Sincerely,

Kyle Duarte, MIS Systems Strengthening Director

## **Section I. Instructions to Offerors**

### **I.1. Introduction**

Chemonics, the Buyer, acting on behalf of the U.S. Agency for International Development (USAID) and the USAID Global Health Supply Chain Program – Procurement and Supply Management (GHSC-PSM) in Mozambique, under contract number AID-OAA-I-15-00004 and Task Order 1 AID-OAA\_TO-15-00007, Task Order 2 AID-OAA\_TO-15-00009, Task Order 3 AID-OAA-TO-15-00010, and Task Order 4 AID-OAA-TO-16-00018, is soliciting offers from companies and organizations to submit proposals to participate with the GHSC-PSM project to carry out a SIGLUS Technical Assessment for OpenLMIS v3 Upgrade in Mozambique.

The purpose of the Global Health Supply Chain Program– Procurement and Supply Management (GHSC-PSM) is to ensure uninterrupted supplies of health commodities in support of USG-funded public health initiatives around the world. The project provides direct procurement and supply chain management support to the President’s Emergency Plan for AIDS Relief (PEPFAR), the President’s Malaria Initiative (PMI), and Population and Reproductive Health. In supporting USG-funded global health activities, PSM will develop and manage a wide array of services for health commodity procurement and related systems strengthening technical assistance encompassing different elements of a comprehensive supply chain.

Under GHSC-PSM, the strategic vision is to develop and implement a world-class health commodities supply chain within Mozambique and to provide the training and tools to the Government of the Republic of Mozambique (GRM) to efficiently and effectively manage this supply chain beyond the life of the project. Completing these objectives will allow millions of Mozambicans to live longer, healthier, and more productive lives, with access to high-quality, low-cost medicines and health commodities. The project’s high-level, long-term strategic goals are two-fold: build the in-country supply chain and build the capacity of GRM to assume responsibility for and sustainably manage the supply chain, thereby providing critical healthcare services to millions of people within Mozambique.

Specifically, the project works towards the following objectives:

1. Improved strategic planning and collaboration with stakeholders and assist MOH and Central de Medicamentos e Artigos Médicos (CMAM) implementing the structural and operational reforms included in the Strategic Plan for Pharmaceutical Logistics (PELF);
2. Enhanced local capacity to improve system performance in forecasting and supply planning for improved commodity security;
3. Quality of procured health commodities assured through improved registration, standardization, and qualification;
4. HIV/AIDS, Malaria, Family Planning, MCH, TB, Nutrition and other programs medicines and laboratory commodities availability;
5. Improved warehousing and inventory management from the central to the provincial level;
6. More cost-effective transportation activities;
7. Improved and expanded Information Systems leading to higher data visibility at all levels of the supply chain for better evidence-based decision making;
8. Increased sustainability of supply chain operations implemented by MOH, private sector, cooperation partners and communities.

Under these objectives, GHSC-PSM Mozambique intends to roll out an integrated OpenLMIS application to over 1,500 health facilities around the country, and critical to this is the gap-analysis of the existing SIGLUS system.

Chemonics will issue an award to one company or organization. The award will be in the form of a firm fixed price subcontract (hereinafter referred to as “the subcontract”). The successful Offeror shall be required to adhere to the statement of work and terms and conditions of the subcontract, which are incorporated in Section III herein.

**I.9. Negotiations**

Best offer proposals are requested. It is anticipated that a subcontract will be awarded solely on the basis of the original offers received. However, Chemonics reserves the right to conduct discussions, negotiations and/or request clarifications prior to awarding a subcontract. Furthermore, Chemonics reserves the right to conduct a competitive range and to limit the number of offerors in the competitive range to permit an efficient evaluation environment among the most highly-rated proposals. Highest-rated offerors, as determined by the technical evaluation committee, may be asked to submit their best prices or technical responses during a competitive range. At the sole discretion of Chemonics, offerors may be requested to conduct oral presentations. If deemed an opportunity, Chemonics reserves the right to make separate awards per component or to make no award at all.

**I.10. Terms of Subcontract**

This is a request for proposals only and in no way obligates Chemonics to award a subcontract. In the event of subcontract negotiations, any resulting subcontract will be subject to and governed by the terms and clauses detailed in Section III. Chemonics will use the template shown in section III to finalize the subcontract. Terms and clauses are not subject to negotiation. ### **II.1. Background**

In 2016, with support of the GHSC-PSM Mozambique project, CMAM conducted an assessment of several LMIS systems that were piloted by four different implementing partners, that were aimed to run and collect data at the health facility level. The results of the assessment showed that the most adequate solution for CMAM's needs was the SIGLUS system, piloted by the Clinton Health Access Initiative, and developed by ThoughtWorks LLC.

SIGLUS is a robust, web-based electronic LMIS based on OpenLMIS 2.0 technology. Following the award of GHSC-PSM, USAID/Mozambique has prioritized the implementation of the OpenLMIS solution, and has set aside funds for the completion of the activity.

As part of the adoption of the implementation, support, and development of the SIGLUS system starting this year, GHSC-PSM subcontracted ThoughtWorks LLC to provide bug fixes, helpdesk support, develop new features, and integrate SIGLUS with the existing Farramenta Central and SIMAM systems that are currently in use by CMAM.

GHSC-PSM now requires the support of a subcontractor to conduct a gap analysis that will highlight the level of effort required to upgrade the existing SIGLUS system to OpenLMIS 3.x. ## **Annex 2      Guide to Creating a Financial Proposal for a Fixed Price Subcontract**

The purpose of this annex is to guide offerors in creating a budget for their cost proposal. Because the subcontract will be funded under a United States government-funded project, it is important that all offerors' budgets conform to this standard format. It is thus recommended that offerors follow the steps described below.

Step 1: Design the technical proposal. Offerors should examine the market for the proposed activity and realistically assess how they can meet the needs as described in this RFP, specifically in section II. Offerors should present and describe this assessment in their technical proposals.

Step 2: Determine the basic costs associated with each deliverable. The cost proposal should provide the best estimate of the costs associated with each deliverable, which should include labor and all non-labor costs, e.g. other direct costs, such as fringe, allowances, travel and transport, etc.

Other direct costs, i.e. non-labor, include for example the following:

1. Local travel and transportation, and associated travel expenses, if applicable,
2. Lodging and per diem expenses associated with travel, if applicable,
3. Rent
4. Utilities
5. Communications
6. Office supplies

Under no circumstances may cost information be included in the technical proposal. No cost information or any prices, whether for deliverables or line items, may be included in the technical proposal. Cost information must only be shown in the cost proposal.

Step 3: Create a budget for the cost proposal. Each offeror must create a budget using a spreadsheet program compatible with MS Excel. The budget period should follow the technical proposal period. A sample budget is shown on the following page.

Step 4: Write Cost Notes. The spreadsheets shall be accompanied by written notes in MS Word that explain each cost line item and the assumption why a cost is being budgeted as well as how the amount is reasonable.

### Sample Budget

Offerors should revise the budget line items accordingly in response to the technical and cost requirements of this RFP.

### DUNS and SAM Registration Guidance

#### What is DUNS?

The Data Universal Numbering System (DUNS) is a system developed and regulated by Dun & Bradstreet (D&B) - a company that provides information on corporations for use in credit decisions - that assigns a unique numeric identifier, referred to as a DUNS number, to a single business entity. The DUNS database contains over 100 million entries for businesses throughout the world, and is used by the United States Government, the United Nations, and the European Commission to identify companies. The DUNS number is widely used by both commercial and federal entities and was adopted as the standard business identifier for federal electronic commerce in October 1994. The DUNS number was also incorporated into the Federal Acquisition Regulation (FAR) in April 1998 as the Federal Government's contractor identification code for all procurement-related activities.

#### Why am I being requested to obtain a DUNS number?

U.S. law – in particular the Federal Funding Accountability and Transparency Act of 2006 (Pub.L. 109-282), as amended by section 6202 of the Government Funding Transparency Act of 2008 (Pub.L. 110-252) - make it a requirement for all entities doing business with the U.S. Government to be registered, currently through the System for Award Management, a single, free, publicly- searchable website that includes information on each federal award. As part of this reporting requirement, prime contractors such as Chemonics must report information on qualifying subawards as outlined in FAR 52.204-10 and 2CFR Part 170. Chemonics is required to report subcontracts with an award valued at greater than or equal to \$30,000 under a prime contract and subawards under prime grants or prime cooperative agreements obligating funds of \$25,000 or more, whether U.S. or locally-based. Because the U.S. Government uses DUNS numbers to uniquely identify businesses and organizations, Chemonics is required to enter subaward data with a corresponding DUNS number.

#### Is there a charge for obtaining a DUNS number?

No. Obtaining a DUNS number is absolutely free for all entities doing business with the Federal government. This includes current and prospective contractors, grantees, and loan recipients.

#### How do I obtain a DUNS number?

DUNS numbers can be obtained online at <http://fedgov.dnb.com/webform/pages/CCRSearch.jsp> or by phone at 1-800-234-3867 (for US, Puerto Rico and Virgin Island requests only).

#### What information will I need to obtain a DUNS number?

To request a DUNS number, you will need to provide the following information:

- Legal name and structure
- Tradestyle, Doing Business As (DBA), or other name by which your organization is commonly recognized
- Physical address, city, state and Zip Code
- Mailing address (if separate)
- Telephone number
- Contact name
- Number of employees at your location

- Description of operations and associated code (SIC code found at <https://www.osha.gov/pls/imis/sicsearch.html>)
- Annual sales and revenue information
- Headquarters name and address (if there is a reporting relationship to a parent corporate entity)

### **How long does it take to obtain a DUNS number?**

Under normal circumstances the DUNS is issued within 1-2 business days when using the D&B web form process. If requested by phone, a DUNS can usually be provided immediately.

### **Are there exemptions to the DUNS number requirement?**

There may be exemptions under specific prime contracts, based on an organization's previous fiscal year income when selected for a subcontract award, or Chemonics may agree that registration using the D&B web form process is impractical in certain situations. Organizations may discuss these options with the Chemonics representative.

### **What is CCR/SAM?**

Central Contractor Registration (CCR)—which collected, validated, stored and disseminated data in support of agency acquisition and award missions—was consolidated with other federal systems into the System for Award Management (SAM). SAM is an official, free, U.S. government-operated website. There is NO charge to register or maintain your entity registration record in SAM.

### **When should I register in SAM?**

While registration in SAM is not required for organizations receiving a grant under contract, subcontract or cooperative agreement from Chemonics, Chemonics requests that partners register in SAM if the organization meets the following criteria requiring executive compensation reporting in accordance with the FFATA regulations referenced above. SAM.gov registration allows an organization to directly report information and manage their organizational data instead of providing it to Chemonics. Reporting on executive compensation for the five highest paid executives is required for a qualifying subaward if in your business or organization's preceding completed fiscal year, your business or organization (the legal entity to which the DUNS number belongs):

- (1) received 80 percent or more of its annual gross revenues in U.S. federal contracts, subcontracts, loans, grants, subgrants, and/or cooperative agreements; **and**
- (2) \$25,000,000 or more in annual gross revenues from U.S. federal contracts, subcontracts, loans, grants, subgrants, and/or cooperative agreements; **and**,

If your organization meets the criteria to report executive compensation, the following sections of this document outline the benefits of and process for registration in SAM.gov. Registration may be initiated at <https://www.sam.gov>. There is NO fee to register for this site.

### **Why should I register in SAM?**

Chemionics recommends that partners register in SAM to facilitate their management of organizational data and certifications related to any U.S. federal funding, including required executive compensation reporting. Executive compensation reporting for the five highest paid executives is required in connection with the reporting of a qualifying subaward if:

- a. In your business or organization's preceding completed fiscal year, your business or organization (the legal entity to which the DUNS number belongs) received (1) 80 percent or more of its annual gross revenues in U.S. federal contracts, subcontracts, loans, grants, subgrants, and/or cooperative agreements; and (2) \$25,000,000 or more in annual gross revenues from U.S. federal contracts, subcontracts, loans, grants, subgrants, and/or cooperative agreements; and,
- b. The public have does not have access to information about the compensation of the executives in your business or organization (the legal entity to which the DUNS number it provided belongs) through periodic reports filed under section 13(a) or 15(d) of the Securities Exchange Act of 1934 (15 U.S.C. 78m(a), 78o(d)) or section 6104 of the Internal Revenue Code of 1986.

### **What benefits do I receive from registering in SAM?**

By registering in SAM, you gain the ability to bid on federal government contracts. Your registration does not guarantee your winning a government contract or increasing your level of business. Registration is simply a prerequisite before bidding on a contract. SAM also provides a central storage location for the registrant to supply its information, rather than with each federal agency or prime contractor separately. When information about your business changes, you only need to document the change in one place for every federal government agency to have the most up-to-date information.
