

Save the Date: OpenLMIS GHSC Lunch Event

29 November; 12 noon-2pm
Radisson Blu Hotel, Lusaka

The OpenLMIS Community cordially invites you to attend an interactive and informative lunch event to learn more about OpenLMIS, and how it could be used to transform the health commodity supply chains in your country.

The lunch meeting will provide valuable opportunities to:

- Network among the global OpenLMIS Community and implementation partners
- Learn about the OpenLMIS software capabilities in terms of inventory management, vaccines, integrations, analytics
- Listen to experiences from colleagues who have introduced OpenLMIS in their country

Food and refreshments will be provided free of charge to all attendees. We look forward to seeing you there!

Time: 12 noon-2pm

Date: 29 November, 2018

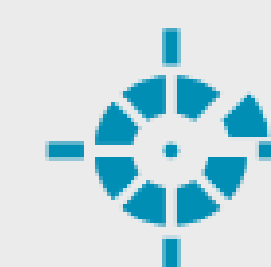

Location: Radisson Blu Hotel, Lusaka (this is a side event to the Global Health Supply Chain Summit)

What is OpenLMIS?

OpenLMIS is a powerful, open source, cloud-based electronic logistics management information system (LMIS) purpose-built to manage health commodity supply chains

OpenLMIS currently manages logistics processes at more than **10,000 health facilities** across **eight geographies**, providing ordering, reporting, and inventory management for all major health programs including vaccines.
